

A DAY!

Everything can change in a single day.

DRAMA / ROMANCE | APPROX. 13:20

LOGLINE

Over the course of a pivotal 24 hours, a young woman navigates a series of choices and encounters that may shape the direction of her life.

SYNOPSIS

Across a single day, a young woman moves through choices and encounters whose significance is not always clear in the moment. As the hours unfold, the film follows the uncertainty of a life in motion, where an ordinary exchange or a personal decision can take on unexpected weight. A Day! stays close to that pivotal stretch of time, leaving space for the possibilities beyond it.

THE PROJECT

Created by Michael Ward, A Day! is an original narrative short and a proof of concept for a larger, interconnected storytelling world. It stands as its own film while opening a conversation about what comes next.
